

3650 B<sup>c</sup>

Earliest vehicle period in the world  
(southern Russia); ox-drawn wagons.

3650BC

Azimuor

An Emperor of China, Huang Ti, noted that "all blood in the body is under control of the heart... the blood current flows continuously in a circle and never stops.

in 1616 William Harvey supported this theory.

c. 3650 - 3300

NAQADA II in Egypt.
